

'Camellia x 'Winter's Snowman'

'Winter's Snowman' Camellia

'Winter's Snowman' Camellia was bred for cold hardiness allowing it grow consistently in areas where camellias were previously marginal at best. Prolific pink buds open to white anemone form flowers beginning in mid-November. Its new growth emerges as a striking, shiny deep burgundy. Maturity: 10-15' x 7-8'. Zones 6-9.
