

Pyramidal European Hornbeam

***Carpinus betulus* 'Fastigiata'**

This fine textured small tree is tightly fastigiata (narrow) in youth spreading into a more relaxed cone shape with age. The clean looking, dark green foliage turns yellow-orange in the fall. A great selection for street tree use and screen plantings. Maturity is 30-40' tall by 20-30' wide. Suitable for zones 4-8.
